

Bryson Reece

Norman, OK • (918) 504-1257 • hey@bryson.cc

EDUCATION

University of Oklahoma, Norman, OK — B.S. C.S.

JANUARY 2016 - PRESENT

RELEVANT EXPERIENCE

Senior/Lead Software Engineer, WellCaddie — Norman, OK

NOVEMBER 2016 - PRESENT

Implemented and facilitated a complete overhaul and refactor of both frontend and backend services of the WellCaddie platform directly resulting in a company valuation increase of several million dollars.

Software Engineer (Internship), Tankvault — Norman, OK

AUGUST - NOVEMBER 2016

Developed web-based tooling to streamline oil and gas worker operations. Features developed included mapping applications used for route optimization, forecast indicators for field workers, as well as mobile alerts and monitoring for damaged oil production equipment.

Software Engineer, University of Oklahoma — Norman, OK

MAY 2016 - AUGUST 2017

Helped establish the first makerspace at the university, developing workflows and custom tooling for managing 3D printing services. Also helped develop O.V.A.L., a VR pedagogy tool currently used by universities nationwide. O.V.A.L. went on to host the world's first remote pedagogy session in virtual reality.

PROJECT HIGHLIGHTS

Seedling — Chinese to English phonetic transliteration, patented

AUGUST - OCTOBER 2017

Athena — Mobile LMS Video Platform, MLH Hackathon Winner (2x)

APRIL 2017 - MARCH 2018

O.V.A.L. — Virtual Reality Pedagogy Environment, used nationwide

MAY 2016 - AUGUST 2017

Stream — Decentralized Media Streaming, 13,000+ downloads

JUNE 2014 - MAY 2016

Additional projects available at bryson.cc/projects
